Professor, Department of Chemistry and Biological Science, Aoyama Gakuin University

【E-mail】 suzuki@chem.aoyama.ac.jp

【Speciality】 Photochemistry

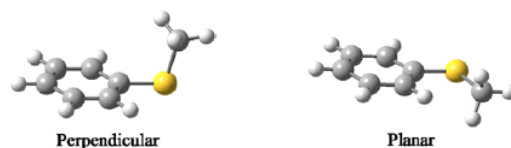

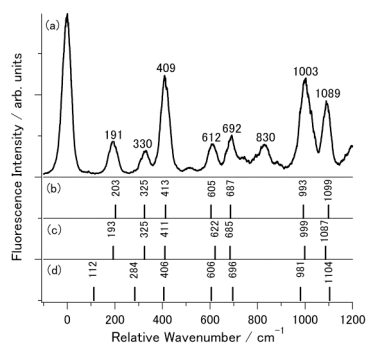

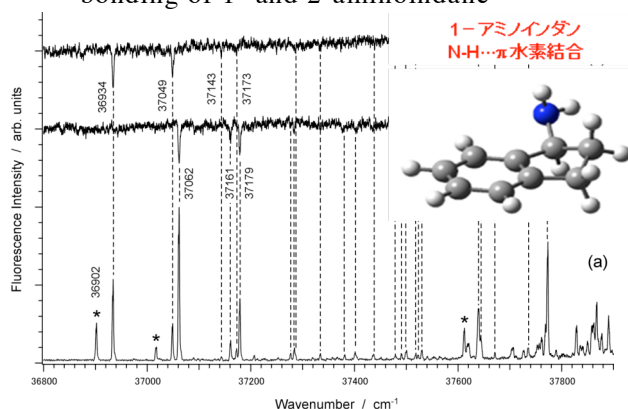

【Keywords】 Jet Spectroscopy, Substituted Nucleic Acid Bases, Relaxation Dynamics of Excited States

【Research Subject】

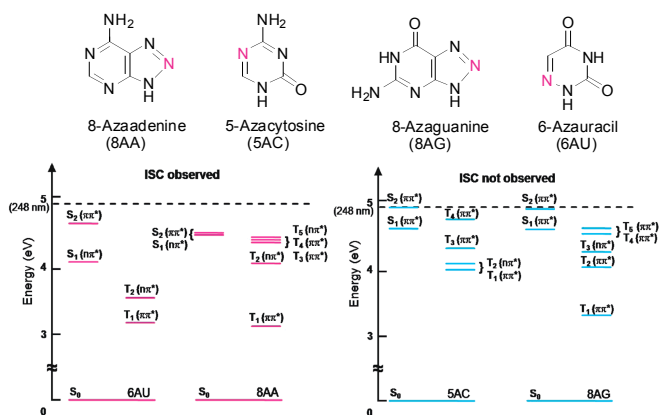

Excited State Dynamics of Aza-substituted Nucleic Acid Bases in a Supersonic Jet

Research Group Activity

Weak intramolecular hydrogen bonding of 1- and 2-aminoindane

Excited state of polyacetylene studied by optical probing photoacoustic spectroscopy

Electronic excited states of aza-substituted nucleic acid bases and their relaxation processes
